

# Kitchen Safety

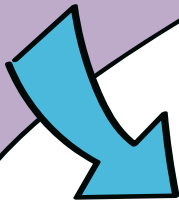

The **KITCHEN** in particular can be a dangerous place especially if unsupervised.

Can you draw some dangerous things that can be found in the kitchen?

What accidents could happen in the kitchen?

How can we keep ourselves safe in the kitchen?

## **Kitchen Safety**

**Is the child home alone a lot and uses  
the kitchen by themselves?**

**Explore further if needed.**

**Use other supporting activities  
if expansion is needed.**

**Give further support and  
examples if needed.**
