

# Who Looks After Me?

**This is who  
looks after me**

**When they are out  
or not around, this is  
who looks after me**

**Sometimes when I'm on my own I feel...**

**Do you look after anyone when they are on their own?**

## Who Looks After Me?

If the child doesn't have anyone who looks after them, how do they manage on their own and how do they feel about this?

(This will need further action if there is cause for concern regarding age etc).

Do they like being on their own?

Does the person who looks after them make them feel safe?
